3 BEDS, 2 FULL BATH(S)

Are you looking a peaceful home, off the beaten path? How about a chef's dream kitchen; one featuring a gas range, a beautiful island, farmhouse sink, and workable counter space for all of your cooking or entertaining projects? Could you see yourself with over a half-acre to utilize however you see fit? Then you need to check out this awesome 3-bedroom 2-bathroom home. The living room opens up to the dining room and kitchen, making the main areas of the house wonderfully accessible from every room; and then quietly retires into a split floorplan. The only thing nicer than the layout is the 3 oversized bedrooms, which are complimented by the largest closets you will find in a home this size. It is only 5 yrs young, well maintained, and comes with a new shed. Did I forget to mention the house sits directly in the middle of a quiet street and nestled next to a larger wooded lot; and is just waiting for all of your back yard get togethers.
