3 BEDS, 2 FULL BATH(S)

This is truly a diamond in the rough, and would just take a minimal amount of work to make it truly shine. Many updates include refinished hardwood floors in living, dining and downstairs 2 original bedrooms. Main bath has been remodeled with bathtub being removed and a extra large walk in shower with beautiful tile and mosaic accents. There is a huge area that could house additional kitchen cabinets and counter space along with a perfect area for a coffee bar. The back of the house has a huge space that can house the laundry/mud room and you could even have an area for a small office. There is a separate front door that leads into a small living area, full bath and stairs to the upstairs bedroom. There was also the start of an additional living area in the back yard and there is an area plumbed for a full bath. So much potential, great lot with no back neighbors. Call your Realtor today.
